ADR-0003: The engineering wiki lives in docs/

Updated 25 September 2026

Why the engineering wiki is Markdown and Mermaid under docs/, versioned with the code and reviewed in pull requests.

Status: accepted (2026-09-15)

Context

No wiki or diagrams existed; GitHub Wiki needs Pro on a private repo and is not PR-reviewed. 20+ loose audit reports sat at the repo root.

Decision

Keep the wiki as Markdown + Mermaid under docs/, versioned with the code and reviewed in PRs. Migrate the loose reports into docs/reports/.

Consequences

Diagrams render natively on GitHub in any plan; docs cannot drift from the code they ship with. External links are checked weekly by docs-links.yml (lychee; a failure opens an issue, never blocks a merge); internal links on every build (ADR-0012).
