Reports & Audit History

Updated 25 September 2026

Index of past audits, reports and plans kept for history; the live state is in the handbook.

<https://docs.gurbanisoul.com/reports/>

Historical audits and plans. These are point-in-time records; the live state is in the [engineering handbook](#), the [CHANGELOG](#)¹, and this wiki.

- [archive](#)² — point-in-time audits and reports formerly at the repository root (validation, QA resolution, proactive hardening, Apple-grade audit, iOS build and TestFlight readiness, schema v2 migration, vector-search feasibility, v2.8 system audit).
- Design documents and plans live in [../design](#)³.

Some reports reference files one level above the repo (`../SGGS-* - 2026-06-* .md`) that are external to git.
